Subject Index

Acetazolamide attenuates asthma induced by hyperventilation of cold dry air, 1518
N-Acetylcysteine, effects of, on diaphragmatic function and malondialdehyde content in *Escherichia coli* endotoxemic rats, 730
Acquired immunodeficiency syndrome
  bacterial tracheitis with upper airway obstruction in patients with (CASE REPORT), 1598
  patients with, pentamidine levels are higher in, during treatment of *Pneumocystis carinii* pneumonia, 740
  pulmonary and intestinal microsporidiosis in patient with (CASE REPORT), 1603
Adenosine
  5′-monophosphate-induced bronchoconstriction, greater effect of inhaled budesonide on, than on sodium metabisulfite-induced bronchoconstriction in asthma, 560
  is pulmonary vasodilator in newborn lambs, 670
Adenovirus, latent infection caused by, in pathogenesis of chronic airway obstruction, 177
Adult(s)
  criteria for obstructive sleep apnea do not identify children with serious obstruction, 1231
  older, with chronic respiratory illness, exposure of, to nitrogen dioxide, 1480
  respiratory distress syndrome
    effect of tidal volume on gas exchange and oxygen transport in, 1131
    increased serum catalase activity in septic patients with, 985
    retargeting ventilatory objectives in (EDITORIAL), 2
    subpopulation of hyperresponsive polymorphonuclear neutrophils in patients with, 990
Aerosol
  beclomethasone, in chronic bronchitis, improved pulmonary function and diminished airway inflammation using, 389
  chemoprophylaxis, pentamidine, diagnosis of *Pneumocystis carinii* pneumonia by multiple-lobe, site-directed BAL with immunofluorescent monoclonal antibody staining in HIV-infected patients receiving, 838
  exposure, sulfuric acid, in humans assessed by BAL, 626
  lidocaine, reduces dose of topical anesthetic for bronchoscopy (BRIEF COMMUNICATION), 520
  lipopolysaccharide, increases pulmonary clearance of ^{99m}Tc-DTPA in rabbits, 1462
  nebulized, delivery of, to lung model during mechanical ventilation, effect of ventilator settings and nebulizer type, position, and volume of fill on, 383
  prophylaxis, pentamidine, effect of, on clinical severity and diagnosis of *Pneumocystis carinii* pneumonia, 844
^{99m}Tc-DTPA, lung inflammation in coal miners assessed by uptake of ^{67}Ga-citrate and clearance of inhaled, 47
Air, cold dry
  acetazolamide and furosemide attenuate asthma induced by hyperventilation of, 1518
  local application of atropine attenuates upper airway reaction to, 340
Airflow
  limitation
    chronic, exercise capacity, ventilatory, circulatory, and symptom limitation in patients with, 935
    upper airway anesthesia induces, in awake humans, 581
  obstruction
    chronic
      abdominal muscle use during breathing in patients with, 16
      respiratory input impedance from 4 to 256 Hz in normal subjects and in those with, 570
      interaction between immunoglobulin E and smoking in, in the elderly, 402
      sputum ECP levels correlate with parameters of, 604
Air spaces of patients with adult respiratory distress syndrome, elevated levels of NAP-1/interleukin-8 are present in, and are associated with increased mortality, 427
Airway(s)
  anesthesia, upper, induces airflow limitation in awake humans, 581
  areas, cross-sectional, induced by methacholine, histamine, and LTC_4 in asthmatic subjects, changes in, 577
  blood flow, corticosteroid administration modifies ozone-induced increases in, in sheep, 660
  human
    isolated central and peripheral, inhibition by L-N^G-nitro-L-arginine of nonadrenergic-noncholinergic-mediated relaxations of, 1543
    role of potassium channels in bronchodilator responses in, 132
  hyperresponsiveness, bradykinin causes, and enhances maximal airway narrowing, 1301
  inflammation
    is diminished using aerosolized beclomethasone in chronic bronchitis, 389
    and occurrence of delayed bronchoconstriction in exercise-induced asthma, 507
    ozone-induced, effect of platelet-activating factor antagonist on, in guinea pigs, 916
    predicts diffuse alveolar hemorrhage during bone marrow transplantation in patients with Hodgkin's disease, 439
  microvascular leakage in guinea pigs sensitized with trimellitic anhydride, 1306
  mucociliary transport, impairment of, by *Pseudomonas aeruginosa* products, role of oxygen radicals in, 1173
  narrowing, maximal, in general population, 895
  obstruction
    chronic, latent adenoviral infection in pathogenesis of, 177
    decreased airway mucosal prostaglandin E_2 production during, in animal model of asthma, 586
    perception of, in random population sample and its relationship to airway hyperresponsiveness in absence of respiratory symptoms, 396
    physiologic studies of tracheobronchial stents in (BRIEF COMMUNICATION), 1088
    recovery of leukotriene E_4 from urine in patients with, 104
    repetitive, effects of, on oxygen saturation and systemic and pulmonary arterial pressure in anesthetized dogs, 1402
    upper, bacterial tracheitis with, in patients with AIDS (CASE REPORT), 1598
  occlusion during sleep, effect of
    hyperoxia on arousal response to, in normal subjects, 330
    triazolam on arousal response to, in normal subjects, 1256
  reaction, upper, to cold dry air, local application of atropine attenuates, 340
  remodeling, hyperoxia-induced, in immature rats and its correlation with airway responsiveness, 1294
  resistance, peripheral, in smokers, 92
  response to
    allergen challenge, morphometric changes during early airway response to, in rats, 1037
    antigen, effect of interleukin-2 on, in rats, 163
    hyperosmolar challenge, nedocromil sodium inhibits, in patients with asthma, 1149
  responsiveness
    effect of

smoke inhalation on, in wildland fire fighters, 1469
22 months of treatment with inhaled corticosteroids and/or beta-2-agonists on, in children with asthma, 547
increase in, and effect of deep inhalation on airway caliber in allergen-induced asthma, 127
to methacholine challenge, risk factors for increased, among laboratory animal workers, 1494
nonspecific, endogenous sensory neuropeptide release enhances, in guinea pigs, 148
small, disease of (STATE OF THE ART), 240
smooth muscle
furosemide differentially relaxes, in fetal, newborn, and adult guinea pigs, 1192
human, histamine tachyphylaxis in, role of H_2-receptors and bronchial epithelium in, 137
and tissue oxygen tensions, short-term interaction of, on ciliary beat frequency in dogs, 141
upper
cardiovascular effects of periodic occlusions of, in dogs, 321
magnetic resonance imaging of, in obstructive sleep apnea (CORRESPONDENCE), 536
Allergen
challenge
bronchial exudation of bulk plasma at, in allergic asthma, 1535
morphometric changes during early airway response to, in rats, 1037
-induced
asthma, increased in airway responsiveness and effect of deep inhalation on airway caliber in, 127
asthmatic responses, formoterol compared with beclomethasone and placebo on, 1156
rhinitis, immunohistology of nasal mucosa after, 170
inhalation, effect of, on maximal response plateau of dose-response curve to methacholine, 565
urinary excretion of leukotriene E_4 and 11-dehydro-thromboxane B_2 in response to bronchial provocation with, in asthmatics, 96
Allograft recipients
lung, sequelae of cytomegalovirus pulmonary infections in, 1419
pulmonary, ganciclovir prophylaxis for cytomegalovirus infections in, 1213
Almitrine bismesylate and lateral position, comparative study of effects of, during unilateral bacterial pneumonia with severe hypoxemia, 295
Altitude, high, ventilation and gaseous metabolism in infants born at, and their response to hypoxia, 1206
Alveolar
capillaritis, antimyeloperoxidase autoantibody-associated necrotizing (CASE REPORT), 1326
hemorrhage, diffuse, airway inflammation predicts, during bone marrow transplantation in patients with Hodgkin's disease, 439
macrophage, *See* Macrophage, alveolar
and nonalveolar tissues, distribution of lung cell numbers and volumes between, 454
permeability, delayed effects of NO_2 exposure on, in healthy humans, 654
Alveolitis, lymphocytic, in nonoccupational asbestos exposure, 1565
ANCAs aweigh (EDITORIAL), 1128
Androgen blockade does not affect sleep-disordered breathing or chemosensitivity in men with obstructive sleep apnea, 1389
Anesthesia, upper airway, induces airflow limitation in awake humans, 581
Anesthetic, topical, aerosolized lidocaine reduces dose of, for bronchoscopy (BRIEF COMMUNICATION), 520
Angiotensin
-convertin enzyme
activity, serum, in chronic berylium disease, 39
modulation of bronchial reactivity by, in unanesthetized guinea pigs, 154
II-1 receptor mediated CI secretion by canine tracheal epitheium, 1187
Animal feed industry, dust- and endotoxin-related respiratory effects in, 1474
Antagonist(s)
novel leukotriene, ONO-1078, inhibits and reverses human bronchial contraction induced by leukotrienes C_4 and D_4 and antigen *in vitro*, 923
platelet-activating factor, effect of, on ozone-induced airway inflammation and bronchial hyperresponsiveness in guinea pigs, 916
potent and selective
leukotriene D_4 receptor, bronchodilation with, in patients with asthma, 358
nonpeptide SR 48968 of neurokinin A receptors, effects on isolated human bronchus of, 1177
sulfidopeptide leukotriene receptor, effect of, on endotoxin-induced pulmonary dysfunction in awake sheep, 997
Antibody(ies)
to hepatitis C virus, serum, idiopathic pulmonary fibrosis and high prevalence of (BRIEF COMMUNICATION), 266
pneumococcal capsular, effect of cirrhosis on production and efficacy of, in rat model, 1054
staining, immunofluorescent monoclonal, diagnosis of *Pneumocystis carinii* pneumonia by multiple-lobe, site-directed BAL with, in HIV-infected patients receiving aerosolized pentamidine chemoprophylaxis, 838
Anticholinergic agents, effective site of bronchodilation by, in patients with COPD, 88
Antigen
canine *in vivo* tracheal chemotaxis of eosinophils to, is inhibited by systematic lazaroid U-78517F and several topical H_1 antihistamines in sensitized dogs, 621
-induced
acute and late-phase responses in primates, 369
eosinophil infiltration into mouse trachea, $CD4^+$ T-lymphocytes and interleukin-5 mediate, 374
novel leukotriene antagonist ONO-1078 inhibits and reverses human bronchial contraction induced by, *in vitro*, 923
versus hyperpnea challenge, relationship among mediators, inflammation, and volume history with, in guinea pigs, 1315
Antihistamines several topical H_1, inhibit canine *in vivo* tracheal chemotaxis of eosinophils to antigen in sensitized dogs, 621
Antimyeloperoxidase autoantibody-associated necrotizing alveolar capillaritis (CASE REPORT), 1326
Apnea
obstructive sleep
androgen blockade does not affect sleep-disordered breathing or chemosensitivity in, 1389
adult criteria for, do not identify children with serious obstruction, 1231
effects of
surgical correction of nasal obstruction in treatment of, 1261
transcutaneous electrical stimulation during wakefulness and sleep in patients with, 1030
magnetic resonance imaging of upper airway in (CORRESPONDENCE), 536
respiratory short-term poststimulus potentiation after discharge in patients with, 1250
sleep
amelioration of, by salicylate-induced hyperventilation, 711
specific and potent pressor effect of hypoxia in patients with, 1240
syndrome, obstructive sleep, temperature thresholds in oropharynx of patients with, 1246
Arginine, L-N^G-nitro-L-, inhibition by, of nonadrenergic-noncholinergic-mediated relaxations of human isolated central and peripheral airways, 1543

Artery
elastolytic activity, increased pulmonary, in adult rats with monocrotaline-induced progressive hypertensive pulmonary vascular disease compared with infant rats with nonprogressive disease, 213
occlusion, pulmonary, reperfusion after 2-hour period of, causes pulmonary necrosis, 1048
Asbestos exposure, nonoccupational, lymphocytic alveolitis and pleural calcifications in, 1565
Aspiration, transbronchial needle, polymicrobial bacterial pericarditis after (CASE REPORT), 523
Aspirin
-lysine inhalation, urinary leukotriene E_4 after, in asthmatics, 1531
urinary excretion of leukotriene E_4 and 11-dehydro-thromboxane B_2 in response to bronchial provocation with, in asthmatics, 96
Asthma
acute severe
risk factors for morbidity in mechanically ventilated patients with, 607
use of measurement of pulmonary hyperinflation to control level of mechanical ventilation in patients with, 1136
adult, mucociliary clearance in, 598
allergen-induced, increase in airway responsiveness and effect of deep inhalation on airway caliber in, 127
allergic
bronchial exudation of bulk plasma at allergen challenge in, 1535
and nonallergic patients with, have distinct patterns of T-cell activation and cytokine production in peripheral blood and BAL, 109
asymptomatic, partitioning of pulmonary responses to inhaled methacholine in subjects with, 1501
bronchial, alveolar macrophage accessory cell function in, 900
chest radiography and high resolution computed tomography of lungs in (BRIEF COMMUNICATION), 1084
children with
effects of 22 months of treatment with inhaled corticosteroids and/or beta-2-agonists on lung function, airway responsiveness, and symptoms, 547
evolution of therapy for (EDITORIAL), 544
corticosteroid-induced myopathy involving respiratory muscles in patients with (CASE REPORT), 800
decreased airway mucosal prostaglandin E_2 production during airway obstruction, animal model of, 586
epidemiology of, community-based study of, 888
exercise-induced, airway inflammation and occurrence of delayed bronchoconstriction in, 507
in farmers, association of, with use of pesticides, 884
Greater effect of inhaled budesonide on adenosine 5′-monophosphate-induced than on sodium metabisulfite-induced bronchoconstriction in, 560
immunologic, induced by inhalation of trimellitic anhydride, guinea pig model of, 1553
the important questions, part 2 (SUPPLEMENT), 1349
increasing problem of, in United States (EDITORIAL), 823
induced by hyperventilation of cold dry air, acetazolamide and furosemide attenuate, 1518
inflammation, alterations of, timing of prednisone and in nocturnal asthma, 1524
intrinsic, identification of T-lymphocytes, macrophages, and activated eosinophils in bronchial mucosa in, 500
is it T-cell-mediated? (CORRESPONDENCE), 536
near-fatal, long-term prognosis of, 76
nocturnal
enhanced production of oxygen radicals in, 905
timing of prednisone and alterations of airway inflammation in, 1524
occupational
caused by western red cedar, bronchial hyperresponsiveness and level of exposure in (BRIEF COMMUNICATION), 1606
changes in interleukin-1 and tumor necrosis factor production by peripheral blood monocytes after specific bronchoprovocation test in, 408
patients with
allergic, tumor necrosis factor alpha and interleukin-6 production by human mononuclear phagocytes from, after IgE-dependent stimulation, 768
bronchodilation with potent and selective leukotriene D_4 receptor antagonist (MK-571) in, 358
effect of inhaled furosemide and torasemide on bronchial response to ultrasonically nebulized distilled water in, 364
increased
expression of endothelin in bronchial epithelial cells of, and effect of corticosteroids, 1320
oxygen species generation in blood monocytes of, 1161
inflammatory response to acute inhalation of endotoxin in, 352
nedocromil sodium inhibits airway response to hyperosmolar challenge in, 1149
origin of water and urea sampled at BAL in, 444
responses in, allergen-induced, formoterol compared with beclomethasone and placebo on, 1156
severe, myopathy in (BRIEF COMMUNICATION), 517
subjects with, changes in cross-sectional airway areas induced by methacholine, histamine, and LTC_4 in, 577
toward a definition of, for epidemiology, 633
urinary
excretion of leukotriene E_4 and 11-dehydro-thromboxane B_2 in response to bronchial provocations with allergen, aspirin, leukotriene D_4, and histamine in patients with, 96
leukotriene E_4 after lysine-aspirin inhalation in subjects with, 1531
of variable severity, patients with, safety of BAL and bronchial biopsies in, 116
Atopy as risk factor for accelerated FEV_1 decline in male working populations, 878
Atropine, local application of, attenuates upper airway reaction to cold dry air, 340
Australia, Western, Busselton, relation of dose-response slope to respiratory symptoms and lung function in population study of adults living in, 860
Axon reflex, excitatory role of, in bradykinin-induced contraction of guinea pig tracheal smooth muscle, 1548
Azotemia, patients with AIDS and, pentamidine levels are higher in, during treatment of *Pneumocystis carinii* pneumonia, 740
Bacille Calmette-Guérin immunotherapy, intravesical, miliary *M. bovis* induced by (CASE REPORT), 1330
Beclomethasone
aerosolized, in chronic bronchitis, improved pulmonary function and diminished airway inflammation using, 389
and placebo, formoterol compared with, on allergen-induced asthmatic responses, 1156
Behçet's disease, pulmonary vasculitis in, 232
Beryllium disease, chronic, serum angiotensin-converting enzyme activity in, 39
Beta
-adrenergic agents, effective site of bronchodilation by, in patients with COPD, 88
-2-agonists, effects of 22 months of treatment with, on lung function, airway responsiveness, and symptoms in children with asthma, 547
Bicarbonate concentration in Rhesus monkey and guinea pig fetal lung liquid (BRIEF COMMUNICATION), 1613
Biopsy(ies)
bronchial, safety of, in patients with asthma of variable severity, 116
ultrasound-guided core, of thoracic tumors, 763
Blasius resistance formula, use of, to estimate effective diameter of endotracheal tubes, 974
Blood
flow, sheep airway, corticosteroid administration modifies ozone-

induced increases in, 660
monocytes
increased oxygen species generation in, of asthmatic patients, 1161
peripheral, changes in interleukin-1 and tumor necrosis factor production by, after specific bronchoprovocation test in occupational asthma, 408
peripheral
allergic and nonallergic asthmatics have distinct patterns of T-cell activation and cytokine production in, 109
characterization of gamma/delta T-lymphocytes in, of patients with active tuberculosis, 1126
volume, capillary, effect of smoking cessation on, 959
Bone marrow transplantation
airway inflammation predicts diffuse alveolar hemorrhage during, in patients with Hodgkin's disease, 439
autologous, pulmonary complication in patients with lymphoma treated with high-dose therapy and, 485
Bradykinin
causes airway hyperresponsiveness and enhances maximal airway narrowing, role of microvascular leakage and airway edema in, 1301
-induced contraction of guinea pig tracheal smooth muscle, excitatory role of axon reflex in, 1548
Breathing
abdominal muscle use during, in patients with chronic airflow obstruction, 16
sleep-disordered, androgen blockade does not affect, in men with obstructive sleep apnea, 1389
Bronchial
anomaly, bilateral, a pathogenetic factor in spontaneous pneumothorax, 513
contraction induced by leukotrienes C_4 and D_4 and antigen, novel leukotriene antagonist ONO-1078 inhibits and reverses, 923
provocations with allergen, aspirin, leukotriene D_4, and histamine, urinary excretion of leukotriene E_4 and 11-dehydrothromboxane B_2 in response to, in asthmatics, 96
reactivity, modulation of, by angiotensin-converting enzyme in unanesthetized guinea pigs, 154
Bronchial response to ultrasonically distilled water, effect of inhaled furosemide and torasemide on, in asthmatic subjects, 364
responsiveness
to methacholine, peak expiratory flow variability and, 71
nonspecific, to methacholine and peripheral mononuclear leukocyte beta-adrenergic receptor function, relationship between, in young drug-naive subjects, 592
and symptoms in identification of T-lymphocytes, macrophages, and activated eosinophils in bronchial mucosa in intrinsic asthma, 500
Bronchiectasis, mucus hypersecretion in, role of neutrophil proteases in, 1430
Bronchioles, respiratory, inert gas single-breath washout and structural alteration of, 1167
Bronchiolitis, erythromycin reduces neutrophils and neutrophil-derived elastolyticlike activity in lower respiratory tract of patients with, 196
Bronchitis
chronic
aerosolized beclomethasone in, improved pulmonary function and diminished airway inflammation in, 389
with severe obstruction, ΔF508 mutation of cystic fibrosis gene is not found in, in Japan (Brief Communication), 781
Bronchoalveolar lavage
allergic and nonallergic asthmatics have distinct patterns of T-cell activation and cytokine production in, 109
cellularity, distribution in normal volunteers of, 448
fluid, nonfibrous mineral particles in, from general population, 61
multiple-lobe, site-directed, with immunofluorescent monoclonal antibody staining, diagnosis of *Pneumocystis carinii* pneumonia by, in HIV-infected patients receiving aerosolized pentamidine chemoprophylaxis, 838
origin of water and urea sampled at, in asthmatic and in control subjects, 444
from patients with sarcoidosis, platelet-activating factor in, 433
safety of, in patients with asthma of variable severity, 116
and serum N-terminal type III procollagen peptides in idiopathic pulmonary fibrosis, 701
sulfuric acid aerosol exposure in humans assessed by, 626
Bronchoconstriction
delayed, occurrence of, and airway inflammation in exercise-induced asthma, 507
greater effect of inhaled budesonide on adenosine 5′-monophosphate-induced than on sodium metabisulfite-induced, in asthma, 560
in guinea pigs sensitized with trimellitic anhydride, 1306
histamine-induced, pretreatment with aerosolized capsaicin potentiates, in guinea pigs, 159
Bronchodilation
effective site of, by beta-adrenergic and anticholinergic agents in patients with COPD, 88
with potent and selective leukotriene D_4 receptor antagonist (MK-571) in patients with asthma, 358
Bronchodilator
responses in human airways, role of potassium channels in, 132
trials, acute, in COPD, 555
Bronchopneumonia, nosocomial, in critically ill, histologic and bacteriologic aspects of, 1059
Bronchoprovocation test, specific, changes in interleukin-1 and tumor necrosis factor production by peripheral blood monocytes after, in occupational asthma, 408
Bronchoscopy
aerosolized lidocaine reduces dose of topical anesthetic for (Brief Communication), 520
fiberoptic, risk of bacterial contamination during, in polymicrobial bacterial pericarditis after transbronchial needle aspiration (Case Report), 523
Bronchus
-associated lymphoid tissues, study of, in patients with diffuse panbronchiolitis, 473
guinea pig, pharmacologic and neurologic evidence for activation of capsaicin-sensitive sensory nerves by lipoxin A_4 in, 930
isolated human, effects on, of SR 48968, a potent and selective nonpeptide antagonist of neurokinin A receptors, 1177
Broxaterol, effects of, on fatigued canine diaphragm *in vivo*, 22
Budesonide, inhaled, greater effect of, on adenosine 5′-monophosphate-induced than on sodium metabisulfite-induced bronchoconstriction in asthma, 560
Calcification, pleural, in nonoccupational asbestos exposure, 1565
Cancer
non-small-cell lung, validity of enlarged mediastinal nodes as markers of involvement by, 1210
Stage I non-small-cell lung, prognostic significance of tumor proliferative fraction and DNA content in, 707
Capillaritis, antimyeloperoxidase autoantibody-associated necrotizing alveolar (Case Report), 1326
Capsaicin
aerosolized, pretreatment with, potentiates histamine-induced bronchoconstriction in guinea pigs, 159
-induced cough in humans, 347
-sensitive sensory nerves, pharmacologic and neurochemical evidence for activation of, by lipoxin A_4 in guinea pig bronchus, 930
Carbon
dioxide elimination, augmentation of, by intratracheal catheter, 965
monoxide diffusing capacity of lung, acute effect of cigarette smoking on, 851
Carcinoma, detection of *in situ*, by ratio fluorometry, 1458
CARDIA study of race and sex differences in lung function and their relationship to frame size, 644
Catalase activity, increased serum, in septic patients with adult re-

spiratory distress syndrome, 985
Catheter
intratracheal, augmentation of carbon dioxide elimination by, 965
new, direct measurement of intrabronchial pressure with, 88
position, diameter, and flow rate, effect of, on tracheal gas insufflation during pressure-control ventilation, 1411
Cell(s)
activation, T-, allergic and nonallergic asthmatics have distinct patterns of, in peripheral blood and BAL, 109
-binding ability associated with increased number of alveolar macrophages expressing adhesion molecules of leukocyte adhesion molecule family in smokers, 1287
Bronchial epithelial, of asthmatic patients, increased expression of endothelin in, and effect of corticosteroids, 1320
$CD3^+$ and $CD4^+$, adoptively transfer experimental hypersensitivity pneumonitis, 1583
dependency, T-, evidence of, in hypersensitivity pneumonitis in athymic nude mice, 479
function, alveolar macrophage accessory, in bronchial asthma, 900
lung cancer, Stage I non-small-, prognostic significance of tumor proliferative fraction and DNA content in, 707
-mediated, T-, is asthma? (CORRESPONDENCE), 536
mesothelial, tetracycline-hydrochloride-stimulated, produce growth-factor-like activity for fibroblasts, 1009
metaplasia, secretory, covalently linking peptidyl carbamate elastase inhibitor to hydrophilic polymer increases its effectiveness in preventing, in hamsters, 457
nonsmall, lung cancer, validity of enlarged mediastinal nodes as markers of involvement by, 1210
numbers, lung, distribution of, between alveolar and nonalveolar tissues, 454
Cellularity, BAL, distribution in normal volunteers of, 448
Cerebrospinal fluid, substance P, thyrotropin-releasing hormone, and monoamine metabolites in (BRIEF COMMUNICATION), 784
Chamber stiffness, interaction between effects of hypoxia and hypercapnia on altering, in dogs, 313
Chemoprophylaxis, aerosolized pentamidine, diagnosis of *Pneumocystis carinii* pneumonia by multiple-lobe, site-directed BAL with immunofluorescent monoclonal antibody staining in HIV-infected patients receiving, 838
Chemosensitivity, androgen blockade does not affect, in men with obstructive sleep-apnea, 1389
Chemotaxis, canine *in vivo* tracheal, of eosinophils to antigen is inhibited by systematic lazaroid U-78517F and several topical H_1 antihistamines in sensitized dogs, 621
Chest
compression, respiratory responses to, in human subjects, 980
radiography and high resolution computed tomography of lungs in asthma (BRIEF COMMUNICATION), 1084
Children
admitted to hospital, relationship between urinary cotinine levels and diagnosis in, 66
and adolescents, normal polysomnographic values of, 1235
with asthma
effects of 22 months of treatment with inhaled corticosteroids and/or beta-2-agonists on lung function, airway responsiveness, and symptoms in, 547
evolution of therapy for (EDITORIAL), 544
normal, plasma elastin-derived peptide levels in, and physiologic and computed tomographic scan correlates of, 1143
with serious obstruction, adult criteria for obstructive sleep apnea do not identify, 1231
Cigarettes. *See* Smokers and Smoking.
Circulation, peripheral, adaptations of, to positive end-expiratory pressure, 688
Cirrhosis, effect of, on production and efficacy of pneumococcal capsular antibody in rat model, 1054
Cl secretion by canine tracheal epithelium, angiotensin II-1 receptor-mediated, 1187
Coal miners, lung inflammation in, assessed by uptake of ^{67}Ga-citrate and clearance of ^{99m}Tc-DTPA aerosol, 47
Collagen, effects of *in utero* phrenic nerve section on development of, in lamb lungs, 1202
Cor pulmonale, evaluation of, on modified short-axis section of heart by magnetic resonance imaging, 1576
CORRESPONDENCE

Corticosteroid(s)
administration modifies ozone-induced increases in sheep airway blood flow, 660
increased expression of endothelin in bronchial epithelial cells of asthmatic patients and, effect of, 1230
-induced myopathy involving respiratory muscles in patients with chronic COPD or asthma (CASE REPORT), 800
inhaled, effects of 22 months of treatment with, on lung function, airway responsiveness, and symptoms in children with asthma, 547
Cotinine level, urinary, and diagnosis, relationship between, in children admitted to hospital, 66
Cough, capsaicin-induced, in humans, 347
Cryptococcus neoformans, HIV-1 envelope protein (gp120) inhibits activity of human/bronchoalveolar macrophages against, 1434
Cyclic AMP, dibutyryl, attenuates lung responses induced by endotoxin in conscious sheep, 32
Cystic fibrosis. *See* Fibrosis, cystic
Cytokine production
allergic and nonallergic asthmatics have distinct patterns of, in peripheral blood and BAL, 109
role of, in subpopulation of hyperresponsive polymorphonuclear neutrophils in patients with adult respiratory distress syndrome, 990
Cytomegalovirus
infections, ganciclovir prophylaxis for, in pulmonary allograft recipients, 1213
pulmonary infections, sequelae of, in lung allograft recipients, 1419
Diaphragm
contractility, hamster, monocyte inflammatory mediators impair, *in vitro*, 462
effects of acute fatigue in, during labor, 1226
fatigued canine, effects of broxaterol and theophylline on, *in vivo*, 22
function of, effects of N-acetylcysteine on, in *Escherichia coli* endotoxemic rats, 730
hamster, fiber type and regional differences in oxidative capacity and glycogen content in, 1266
improved function of, after surgical plication for unilateral diaphragmatic paralysis (CASE REPORT), 797
of newborn, weanling adolescent, and adult rats, effect of steroids on, 26

Dibutyryl cyclic AMP attenuates lung responses induced by endotoxin in conscious sheep, 32
Diffusing capacity
carbon monoxide, of lung, acute effect of cigarette smoking on, 951
pulmonary carbon monoxide, effect of smoking cessation on, 959
single-breath, real-time gas analysis improves measurement of, 946
DNA content, prognostic significance of, in Stage I non-small-cell lung cancer, 707
Dogs
angiotensin II-1 receptor-mediated CI secretion by tracheal epithelium of, 1187
anesthetized, effects of, repetitive airway obstruction on oxygen saturation and systemic and pulmonary arterial pressure in, 1402
cardiovascular effects of periodic occlusions of upper airways in, 321
effects of
broxaterol and theophylline on fatigued diaphragm in, *in vivo*, 22
positive end-expiratory pressure on venous return curve in, 4
interaction between effects of hypoxia and hypercapnia on altering left ventricular relaxation and chamber stiffness in, 313
lung mechanics and gas exchange during pressure-control ventilation in dogs, 965
sensitized, canine *in vivo* tracheal chemotaxis of eosinophils to antigen is inhibited by systematic lazaroid U-78517F and several topical H_1 antihistamines in, 621
short-term interaction of airway and tissue oxygen tension on ciliary beat frequency in, 141
Dopamine, effects of, before and after pulmonary embolism, pulmonary vascular pressure-flow characteristics and, 307
Dose-response
curve to methacholine, effect of allergin inhalation on maximal response plateau of, 565
slope, relation of, to respiratory symptoms and lung function in population study of adults living in Busselton, Western Australia, 860
Drowning, near, in salt water, pulmonary edema associated with (CASE REPORT), 794
Drug
-naive subjects, young, relationship between nonspecific bronchial responsiveness to methacholine and peripheral mononuclear leukocyte beta-adrenergic receptor function in, 592
-resistant tuberculosis in urban population including patients at risk for HIV infection, 280
Dust
-related respiratory effects in animal feed industry, 1474
trimellitic anhydride, bronchial hyperreactivity after intradermal sensitization to free hapten, 1311
Dysplasia
bronchopulmonary, implications for impaired lung development in, because of degradation of lung elastic fibers in ventilated neonate, 204
detection of *in situ*, by ratio fluorometry, 1458
Dyspnea
and inspiratory muscle weakness in chronic heart failure, 467
oxygen may improve, in patients with COPD and only mild hypoxemia, 941
reproducibility of visual analog scale measurements of, in patients with COPD, 82
and respiratory effort, dissociation between, 1222
Eczema, predictive relationship between serum IgE levels at birth and subsequent incidences of, in infants, 866

lung, in coal miners assessed by uptake of ^{67}Ga-citrate and clearance of inhaled ^{99m}Tc-DTPA aerosol, 47
mediators, and volume history, relationship among, with antigen versus hyperpnea challenge in guinea pigs, 1315
pulmonary, endotoxin escapes hepatic clearance causing, in sheep, 224
ozone-induced airway, effect of platelet-activating factor antagonist on, in guinea pigs, 916
Inflammatory
mediators, monocyte, impair *in vitro* hamster diaphragm contractility, 462
repsonse to acute inhalation of endotoxin in asthmatic patients, 352
Inhalation
allergen, effect of, on maximal response to plateau of dose-response curve to methacholine, 565
deep, and increase in airway responsiveness, effect of, on airway caliber in allergen-induced asthma, 127
of endotoxin, acute, inflammatory response to, in asthmatic patients, 352
lysine-aspirin, urinary leukotriene E_4 after, in asthmatics, 1531
smoke, effect of, on lung function and airway responsiveness in wildland fire fighters, 1469
of trimellitic anhydride dust, bronchial hyperreactivity after, in guinea pigs after intradermal sensitization to free hapten, 1311
Inhaled versus instilled material, heterogeneity of phagocytosis for, 831
Inhaler, metered-dose, adherence to, in clinical trial, 1559
Insufflation, tracheal gas, during pressure-control ventilation effect of catheter position, diameter, and flow rate on, 1411
Interleukin
-1 production, changes in, by peripheral blood monocytes after specific bronchoprovocation test in occupational asthma, 408
-2, effect of, on airway response to antigen in rats, 163
-5
mediates antigen-induced eosinophil infiltration into mouse trachea, 374
modulates eosinophil accumulation in allergic guinea pig lung (Brief Communication), 263
-6 production by human mononuclear phagocytes from allergic asthmatics after IgE-dependent stimulation, 768
-8
is major neutrophil chemotactic factor in pleural liquid of patients with empyema, 825
NAP-1/, elevated levels of, are present in air spaces of patients with adult respiratory distress syndrome and are associated with increased mortality, 427
Isoniazid preventive therapy
program, intermittent, results of directly observed, in shelter for homeless men, 57
of tuberculosis, decision analysis considering ethnicity and gender in (Correspondence), 1118
Japan, ΔF508 mutation of cystic fibrosis gene is not found in chronic bronchitis with severe obstruction in (Brief Communication), 781
Kenya, Nairobi, cohort study of HIV infection in patients with tuberculosis in, 849
Lactate flux and regional and systemic oxygen delivery-uptake relations (Correspondence), 1367
Lamb(s)
lungs, effects of *in utero* phrenic nerve section on development of collagen and elastin in, 1202
newborn, adenosine is pulmonary vasodilator in, 670
Lazaroid U-78517F, systematic, inhibits canine *in vivo* tracheal chemotaxis of eosinophils to antigen in sensitized dogs, 621
Lesions, steroid-responsive culture-negative pulmonary, in extracutaneous manifestations of Sweet's syndrome (Correspondence), 269
Leukocyte(s)
beta-adrenergic receptor function, peripheral mononuclear, and nonspecific responsiveness to methacholine, relationship between, in young drug-naive subjects, 592
lung, effect of aerosolized recombinant human granulocyte macrophage colony-stimulating factor on, in nonhuman primates, 1272
Leukoprotease inhibitor levels, serum secretory, to diagnose pneumonia in elderly, 1426
Leukotriene
antagonist ONO-1078 inhibits and reverses human bronchial contraction induced by leukotrienes C_4 and D_4 and antigen *in vitro*, 923
C_4
changes in cross-sectional airway areas induced by, in asthmatic subjects, 577
effect of, on theophylline disposition in guinea pigs, 616
D_4
receptor antagonist (MK-571), potent and selective, bronchodilation with, in patients with asthma, 358
urinary excretion of leukotriene E_4 and 11-dehydro-thromboxane B_2 in response to, in asthmatics, 96
E_4
recovery of, from urine of patients with airway obstruction, 104
urinary
after lysine-aspirin inhalation in asthmatic subjects, 1531
excretion of, in response to bronchial provocations with allergen, aspirin, leukotriene D_4, and histamine in asthmatics, 96
-induced histamine hyperresponsiveness, effect of indomethacin on, in asthmatics, 1506
receptor antagonists sulfidopeptide, effect of, on endotoxin-induced pulmonary dysfunction in awake sheep, 997
Lidocaine aerosol reduces dose of topical anesthetic for bronchoscopy (Brief Communication), 250
Lipopolysaccharide, aerosolized, increases pulmonary clearance of ^{99m}Tc-DTPA in rabbits, 1462
Lipoxin A_4 pharmacologic and neurochemical evidence for activation of capsaicin-sensitive sensory nerves by, in guinea pig bronchus, 930
Liver disease, chronic, severe hypoxemia-associated intrapulmonary shunt in patient with (Case Report), 526
Lomofloxacin, new quinolone, *in vitro* activity of, against *M. tuberculosis*, 1445
Lung
allergic guinea pig, interleukin-5 modulates eosinophil accumulation in (Brief Communication), 263
allograft recipients, sequelae of cytomegalovirus pulmonary infections in, 1419
cancer

non-small-cell, validity of enlarged mediastinal nodes as markers of involvement by, 1210
Stage I non-small-cell, prognostic significance of tumor proliferative fraction and DNA content in, 707
carbon monoxide diffusing capacity of, acute effect of cigarette smoking on, 951
cell numbers, distribution of, between alveolar and nonalveolar tissues, 454
chest radiography and high resolution computed tomography of, in asthma (BRIEF COMMUNICATION), 1084
damage, oxygen-induced, relationship of lung mitochondrial glutathione levels to, 1452
elastic fibers, risk factors for degradation of, in ventilated neonates, 204
function
abnormal, in polyurethane foam producers, 871
are race and sex differences in, explained by frame size? 644
during chronic paraquat poisoning in sheep, possible role of reactive oxygen species in, 775
decline, longitudinal, in subjects with respiratory symptoms, 855
effect of
smoke inhalation on, in wildland fire fighters, 1469
22 months of treatment with inhaled corticosteroids and/or beta-2-agonists on, in children with asthma, 547
race and sex differences in, and their relationship to frame size, 644
relation of dose-response slope to, in population study of adults living in Busselton, Western Australia, 860
serial, prospective 18-month study of, in 474 patients with HIV infection, 745
testing, selection of reference values and interpretative strategies in (CORRESPONDENCE), 1367
health, world, a concept that should become a reality (EDITORIAL), 818
hydatid disease of, 185
inflammation in coal miners assessed by uptake of ^{67}Ga-citrate and clearance of inhaled ^{99m}Tc-DTPA aerosol, 47
injury
acute
fluid management strategy in (CORRESPONDENCE), 808
plasma alpha-human atrial natriuretic peptide concentration in patients with, 43
isolated perfused rat, effects of natriuretic peptides and endopeptidase 24.11 inhibition in, 1198
lamb, effects of *in utero* phrenic nerve section on development of collagen and elastin in, 1202
lavage, disordered pathways of fibrin turnover in, of premature infants with respiratory distress syndrome, 492
leukocytes, effect of aerosolized recombinant human granulocyte colon-stimulating factor on, in nonhuman primates, 1279
liquid, fetal, Rhesus monkey and guinea pig, bicarbonate concentration in (BRIEF COMMUNICATION), 1613
mechanics during pressure-control ventilation in dogs, 965
model, delivery of nebulized aerosol to, during mechanical ventilation, effect of ventilator settings and nebulizer type, position, and volume of fill on, 383
oxidant changes after zymosan peritonitis, 1272
parenchyma, nonfibrous mineral particles in, from general population, 61
pathology, quantitative assessment of, 1042
preservation for transplantation, biology of (NHLBI WORKSHOP SUMMARY), 803
rabbit, late effects of endotoxin on accumulation and function of monocytes in, 190
response induced by endotoxin, dibutyryl cyclic AMP attenuates, in conscious sheep, 32
transplants, double-, hypercapnic ventilatory response in recipients of (BRIEF COMMUNICATION), 1610
volume, effect of, on upper airway size and function, fast-CT evaluation of, in normal men, 335
Lymphocytes
activated T-, identification of, by immunohistology of nasal mucosa after allergen-induced rhinitis, 170
CD4$^+$ T-, mediate antigen-induced eosinophil infiltration into mouse trachea, 374
gamma/delta T-, characterization of, in peripheral blood of patients with active tuberculosis, 1216
T-, identification of, in bronchial mucosa in intrinsic asthma, 500
Lymphoma, pulmonary complications in patients with, treated with high-dose therapy and autologous bone marrow transplantation, 485
Lysine-aspirin inhalation, urinary leukotriene E_4 after, in asthmatic subjects, 1531
Macrophage(s)
alveolar
accessory cell function of, in bronchial asthma, 900
increased number of, expressing adhesion molecules of leukocyte adhesion molecule family in smoking subjects, 1287
colony-stimulating factor, aerosolized recombinant human granulocyte, effect of, on lung leukocytes in nonhuman primates, 1279
-derived protein, novel, involved in regulation of mucuslike glycoconjugate secretion, *in vivo* detection of, 1589
human
bronchoalveolar, HIV-1 envelope protein (gp120) inhibits activity of, against *Cryptococcus neoformans*, 1434
combined effect of rifampin and pyrazinamide within, 1448
identification of, in bronchial mucosa in intrinsic asthma, 500
Magnetic resonance imaging
evaluation of cor pulmonale on modified short-axis section of heart by, 1576
of upper airway in obstructive sleep apnea (CORRESPONDENCE), 536
Malondialdehyde content, effects of N-acetylcysteine on, in *Escherichia coli* endotoxemic rats, 730
Marijuana of varying potency, effects of smoked, on ventilatory drive and metabolic rate, 716
Men
homeless, results of directly observed intermittent isoniazid preventive therapy in shelter for, 57
normal, fast-CT evaluation of effect of lung volume on upper airway size and function in, 335
with obstructive sleep apnea, androgen blockade does not affect sleep-disordered breathing or chemosensitivity in, 1389
Metabisulfite-sodium-induced bronchoconstriction, greater effect of inhaled budesonide on adenosine 5′-monophosphate-induced bronchoconstriction than on, in asthma, 560
Metabolic rate, effects of smoked marijuana of varying potency on, 716
Metabolism
gaseous, and ventilation in infants born at high altitude and their responses to hyperoxia, 1206
skeletal muscle, ^{31}P-NMR study of, in patients with chronic respiratory impairment, 1019
Metabolites, monoamine, in cerebrospinal fluid (BRIEF COMMUNICATION), 784
Metaplasia, secretory cell, covalently linking peptidyl carbamate elastase inhibitor to hydrophilic polymer increases its effectiveness in prevention, in hamsters, 457
Methacholine
bronchial responsiveness to, and peak expiratory flow variability, 71
challenge, risk factors for increased airway responsiveness to, among laboratory animal workers, 1494
changes in cross-sectional airway areas induced by, in asthmatic subjects, 577
dose-response curve to, effect of allergen inhalation on maximal response plateau of, 565
inhaled, partitioning of pulmonary responses to, in subjects with asymptomatic asthma, 1501
intersubject variability in particle deposition does not explain vari-

ability in responsiveness to (CORRESPONDENCE), 808
nonspecific bronchial responsiveness to, and peripheral mononuclear leukocyte beta-adrenergic receptor function, relationship between, in young drug-naive subjects, 592
responsiveness at risk factor for accelerated FEV_1 decline in male working population, 878
Mice
athymic nude, hypersensitivity pneumonitis in, evidence of T-cell dependency in, 479
trachea of, $CD4^+$ T-lymphocytes and interleukin-5 mediate antigen-induced eosinophil infiltration into, 374
Microsporidiosis, pulmonary and intestinal, in patient with AIDS (CASE REPORT), 1603
Microvascular leakage
airway, in guinea pigs sensitized with trimellitic anhydride, 1036
role of, in bradykinin-caused airway hyperresponsiveness and enhanced maximal airway narrowing, 1301
Mineral particles, nonfibrous, in BAL fluid and lung parenchyma from general population, 61
MK-571, bronchodilation with, in patients with asthma, 358
Molecules, adhesion, increased number of alveolar macrophages expressing, of leukocyte adhesion molecule family in smoking subjects, 1287
Monkey, Rhesus, bicarbonate concentration in fetal lung liquid of (BRIEF COMMUNICATION), 1613
Monocrotaline-induced progressive hypertensive pulmonary vesicular disease, increased pulmonary artery elastolytic activity in adult rats with, 213
Monocyte(s)
blood, increased oxygen species generation in, of asthmatic patients, 1161
inflammatory mediators impair *in vitro* hamster diaphragm contractility, 462
late effects of endotoxin on accumulation and function of, in rabbit lungs, 190
peripheral blood, changes in interleukin-1 and tumor necrosis factor production by, after specific bronchoprovocation in occupational asthma, 408
Mononuclear phagocytes, human, tumor necrosis factor alpha and interleukin-6 production by, from allergic asthmatics after IgE-dependent stimulation, 768
Montreal, foreign-born in, factors associated with tuberculin reactivity among, 752
Mouth pressures, maximal respiratory, reference values of (BRIEF COMMUNICATION), 790
Mucin, immunocytochemistry and ELISA quantitation of, for diagnosis of malignant pleural effusions, 1571
Mucociliary
clearance in adult asthma, 598
transport, airway, impairment of, by *Pseudomonas aeruginosa* products, role of oxygen radicals in, 1173
Mucosa, nasal, immunohistology of, after allergen-induced rhinitis, 170
Mucus
hypersecretion in bronchiectasis, role of neutrophil proteases in, 1430
-like glycoconjugate secretion, *in vivo* detection of novel macrophage-derived protein involved in regulation of, 1589
Muscle(s)
airway and vascular smooth, furosemide differentially relaxes, in fetal, newborn, and adult guinea pigs, 1192
contraction, skeletal and diaphragmatic, effect of chronic renal failure, 1383
endurance, ventilatory, effect of negative pressure ventilation on, in patients with severe COPD, 722
guinea pig tracheal smooth, excitatory role of axon reflex in bradykinin-induced contraction of, 1548
human airway smooth, histamine tachyphylaxis in, role of H_2-receptors and bronchial epithelium in, 137
metabolism, skeletal, ^{31}P-NMR study of, in patients with chronic respiratory impairment, 1019
respiratory, corticosteroid-induced myopathy involving, in patients with COPD or asthma (CASE REPORT), 800
response, human bronchial smooth, effect of *in vitro* nitrogen dioxide exposure on, 378
strength, respiratory, in hyperthyroidism before and after treatment, 1025
use, abdominal, during breathing in patients with chronic airflow obstruction, 16
weakness, inspiratory, and dyspnea in chronic heart failure, 467
Mutation, ΔF508, of cystic fibrosis is not found in chronic bronchitis with severe obstruction in Japan (BRIEF COMMUNICATION), 781
Mycobacterium
avium-complex infections, incidence and natural history of, in patients with advanced HIV disease treated with zidovudine, 285
bovis, miliary, induced by intravesical bacille Calmette-Guérin immunotherapy (CASE REPORT), 1330
tuberculosis, *in vitro* activity of new quinolone lomefloxacin against, 1445
Myopathy
corticosteroid-induced, involving respiratory muscles in patients with COPD or asthma (CASE REPORT), 800
in severe asthma (BRIEF COMMUNICATION), 517
NHLBI WORKSHOP SUMMARY
Biology of lung preservation for transplantation, 803
Research needs and opportunities related to respiratory health of women, 528
Necrosis, pulmonary, reperfusion after 2-hour periods of pulmonary artery occlusion causes, 1048
Nedocromil sodium inhibits airway response to hyperosmolar challenge in patients with asthma, 1149
Neonate, ventilated, risk factors for degradation of lung elastic fibers in, 204
Neoplasia, is lymphocytic alveolitis and pleural calcification in nonoccupational asbestos exposure protection against? 1565
Nerve(s)
capsaicin-sensitive sensory, pharmacologic and neurochemical evidence for activation of, by lipoxin A_4 in guinea pig bronchus, 930
section, phrenic, effects of, on development of collagen and elastin in lamb lungs, 1202
Neurokinin A receptors, effects on isolated human bronchus of SR 48968, a potent and selective nonpeptide antagonist of, 1177
Neuropeptide release, endogenous sensory, enhances nonspecific airway responsiveness in guinea pigs, 148
Neutrophil(s)
activated, identification of, by immunohistology of nasal mucosa after allergen-induced rhinitis, 170
chemotactic factor, interleukin-8 is major, in pleural liquid of patients with empyema, 825
and neutrophil-derived elastolyticlike activity, erythromycin reduces, in lower respiratory tract of patients with bronchiolitis, 196
proteases, role of, in mucus hypersecretion in bronchiectasis, 1430
sequestration, pulmonary, inhaled platelet-activating factor causes, in normal humans, 1003
Newborn(s)
lambs, adenosine is pulmonary vasodilator in, 670
rate, effect of steroids on diaphragm of, 26
ventilatory and metabolic responses to acute hyperoxia in, 11
New York State, silo filler's disease in, 650
Nitrogen
dioxide exposure
in vitro, effect of, on human bronchial smooth muscle response, 378
of older adults with chronic respiratory illness, 1480
oxide exposure, delayed effects of, on alveolar permeability and glutathione peroxidase in healthy humans, 654

Nodes, enlarged mediastinal, validity of, as markers of involvement by non-small-cell lung cancer, 1210
Norepinephine, endogenous, prostanoids inhibit release of, from rat isolated trachea, 1182
Occlusion(s)
periodic, of upper airways, cardiovascular effects of, in dogs, 321
pulmonary, reperfusion after 2-hour period of, causes pulmonary necrosis, 1048
ONO-1078, novel leukotriene antagonist, inhibits and reverses human bronchial contraction induced by leukotrienes C_4 and D_4 and antigen *in vitro*, 923
Oropharynx, temperature thresholds in, of patients with obstructive sleep apnea syndrome, 1246
Oxygen
acute effect of, on pulmonary arterial pressure does not predict survival on long-term oxygen therapy in patients with COPD, 665
delivery/uptake relations, regional and systemic, and lactate flux (CORRESPONDENCE), 1367
-induced lung damage relationship of lung mitochondrial glutathione levels to, 1452
may improve dyspnea and endurance in patients with COPD and only mild hypoxemia, 941
radicals
enhanced production of, in nocturnal asthma, 905
role of, in impairment of airway mucociliary transport by *Pseudomonas aeruginosa* products, 1173
saturation, effects of repetitive airway obstruction on, in anesthetized dogs, 1402
species
generation, increased, in blood monocytes of asthmatic patients, 1161
reactive, possible role of, in pulmonary hemodynamics and lung function during chronic paraquat poisoning in sheep, 775
tensions, airway and tissue, short-term interaction of, on ciliary beat frequency in dogs, 141
transport effect of tidal volume on, in adult respiratory distress syndrome, 1131
Ozone
concentration profiles, steady-state and variable, effects of, on pulmonary function, 1487
-induced
airway inflammation, effect of platelet-activating factor antagonist on, in guinea pigs, 916
increases in sheep airway blood flow, corticosteroid administration modifies, 660
Panbronchiolitis, diffuse, study of bronchus-associated lymphoid tissue in patients with, 473
Paralysis, unilateral diaphragmatic, improved diaphragmatic function after (CASE REPORTS), 797
Paraquat poisoning, chronic, pulmonary hemodynamics and lung function during, in sheep, possible role of reactive oxygen species in, 775
Parenchyma, lung, nonfibrous mineral particles in, from general population, 61
Particle deposition, intersubject variability in, does not explain variability in responsiveness to methacholine (CORRESPONDENCE), 808
Patient compliance: are we wasting our time and don't know it? (EDITORIAL), 1376
Pentamidine
chemoprophylaxis, aerosolized, diagnosis of *Pneumocystis carinii* pneumonia by multiple-lobe, site-directed BAL with immunofluorescent monoclonal antibody staining in HIV-infected patients receiving, 838
levels higher in patients with AIDS, hypoglycemia, and azotemia during treatment of *Pneumocystis carinii* pneumonia, 740
prophylaxis, aerosolized, effect of, on clinical severity and diagnosis of *Pneumocystis carinii* pneumonia, 844
Peptide(s)
atrial natriuretic, infused intravenously, effect of, on bronchoconstriction induced by ultrasonically nebulized distilled water, 912
concentration, plasma alpha-human atrial natriuretic, in patients with acute lung injury, 43
levels, plasma elastin-derived, in normal adults, children, and emphysematous subjects, 1143
natriuretic, effects of, in isolated perfused rat lung, 1198
serum and BAL N-terminal type III procollagen, in idiopathic pulmonary fibrosis, 701
Pericarditis, polymicrobial, after transbronchial needle aspiration (CASE REPORT), 523
Peritonitis, zymosan, lung oxidant changes after, 1272
Permeability, alveolar, delayed effects of NO_2 exposure on, in healthy humans, 654
Pesticides, association of asthma with use of, in farmers, 884
Phagocytosis, heterogeneity of, for inhaled versus instilled material, 831
Pharynx, size and mechanical properties of, in healthy men and women, 1394
^{31}P-NMR study of skeletal muscle metabolism in patients with chronic respiratory impairment, 1019
Pigs, prone position alters effect of volume overload on regional pleural pressures and improves hypoxemia in, *in vivo*, 300
Plasma
alpha-human atrial natriuretic peptide concentration in patients with acute lung injury, 43
bulk, bronchial exudation of, at allergen challenge in allergic asthma, 000
elastin-derived peptide levels in normal adults, children, and emphysematous subjects, 1143
Platelet-activating factor
antagonist, effect of, on ozone-induced airway inflammation and bronchial hyperresponsiveness in guinea pigs, 916
in BAL from patients with sarcoidosis, 433
inhaled, causes pulmonary neutrophil sequestration in normal humans, 1003
Pleurodesis, tetracycline-hydrochloride-induced, mechanism of, 1009
Plication, surgical, for unilateral diaphragmatic paralysis, function after (CASE REPORT), 797
Pneumoconiosis, hard metal, and association of tumor necrosis factor-alpha (CASE REPORT), 1600
Pneumocystis carinii pneumonia
diagnosis of, by multiple-lobe, site-directed BAL with immunofluorescent monoclonal antibody staining in HIV-infected patients receiving aerosolized pentamidine chemoprophylaxis, 838
effect of aerosolized pentamidine prophylaxis on clinical severity of diagnosis of, 844
higher pentamidine levels in patients with AIDS and hypoglycemia and azotemia during treatment of, 740
influence of, on serum and tissue concentrations of pentamidine administered to rats by tracheal injection, 735
Pneumonia
after closed head injury, 290
Pneumocystis carinii
diagnosis of, by multiple-lobe, site-directed BAL with immunofluorescence monoclonal antibody staining in HIV infected patients receiving aerosolized pentamidine chemoprophylaxis, 838
effect of aerosolized pentamidine prophylaxis on clinical severity and diagnosis of, 844
higher pentamidine levels in patients with AIDS and hypoglycemia and azotemia during treatment of, 740
influence of, on serum and tissue concentrations of pentamidine administered to rats by tracheal injection, 735
serum secretory leukoprotease inhibitor levels to diagnose, in elderly, 1426
unilateral bacterial, with severe hypoxemia, comparative study of effects of almitrine bismesylate and lateral position dur-

ing, 295
Pneumonitis, hypersensitivity
in athymic nude mice, evidence of T-cell dependency in, 479
$CD3^+$ and $CD4^+$ cells adoptively transfer experimental, 1582
Pneumothorax, spontaneous, bilateral bronchial anomaly is pathogenetic factor in, 513
Polymer, hydrophilic, covalently linking peptidyl carbamate elastase inhibitor to, increases its effectiveness in preventing emphysema and secretory cell metaplasia in hamsters, 457
Polymorphonuclear neutrophils, hyperresponsive, subpopulation of, in patients with adult respiratory distress syndrome, 990
Polysomnography, normal values of, for children and adolescents, 1235
Polyurethane foam producers, abnormal lung function in, 871
Potassium channels, role of, in bronchodilator responses in human airways, 132
Prednisone, timing of, and alterations of airway inflammation in nocturnal asthma, 1524
Pressor effect, specific and potent of hypoxia in patients with sleep apnea, 1240
Pressure(s)
-control ventilation
effect of catheter position, diameter, and flow rate on tracheal gas insufflation during, 1411
lung mechanics and gas exchange during, in dogs, 965
-flow characeristics, pulmonary vascular, effects of dopamine before and after pulmonary embolism, 307
intrabronchial, direct measurement of, with new catheter, 88
maximal respiratory mouth, reference values of (BRIEF COMMUNICATION), 790
positive end-expiratory
adaptations of peripheral circulation to, 688
effects of,
on canine venous return curve, 4
on right ventricular function in humans, 681
pulmonary arterial, acute effect of oxygen on, does not predict survival on long-term oxygen therapy in patients with COPD, 665
regional pleural, prone position alters effect of volume overload on, and improves hypoxemia in pigs *in vivo*, 300
systemic and pulmonary arterial, effects of repetitive airway obstruction on, in anesthetized dogs, 1402
ventilation
continual positive and two types of negative, hemodynamic differences between, 677
negative, effect of, on ventilatory muscle endurance in patients with severe COPD, 722
Primates
antigen-induced acute and late-phase responses in, 369
nonhuman, effect of aerosolized recombinant human granulocyte macrophage colony-stimulating factor on lung leukocytes in, 1279
Prophylaxis
aerosolized pentamidine, effect of, on clinical severity and diagnosis of *Pneumocystis carinii* pneumonia, 844
ganciclovir, for cytomegalovirus infections in pulmonary allograft recipients, 1213
Prostaglandin E_2 production, decreased airway mucosal, during airway obstruction in animal model of asthma, 586
Prostanoids inhibit release of endogenous norepinephrine from rat isolated trachea, 1182
Proteases, neutrophil, role of, in mucus hypersecretion in bronchiectasis, 1430
Protein
HIV-1 envelope (gp120), inhibits activity of human/bronchoalveolar macrophages against *Cryptococcus neoformans*, 1434
macrophage-derived, involved in regulation of mucuslike glycoconjugate secretion, *in vivo* detection of, 1589
Pseudomonas
adherence to rat tracheal epithelium (CORRESPONDENCE), 1367
aeruginosa products, impairment of airway mucociliary transport by, role of oxygen radicals in, 1173
Pulmonary
clearance of ^{99m}Tc-DPTA, aerosolized lipopolysaccharide increasese, in rabbits, 1462
consolidation, ultrasonographic evaluation of, 757
disease, chronic obstructive,
acute
bronchodilator trials in, 555
effect of oxygen on pulmonary arterial pressure does not predict survival on long-term oxygen therapy in patients with, 665
bacterial infection in (STATE OF THE ART), 1067
corticosteroid-induced myopathy involving respiratory muscles in patients with (CASE REPORT), 800
effect of negative pressure ventilation on ventilatory muscle endurance in patients with severe, 722
oxygen may improve dyspnea and endurance in patients with, and only mild hypoxemia, 941
physiologic effects of oral supplemental feeding in malnourished patients with, 1511
reproducibility of visual analog scale measurements of dyspnea in patients with, 82
dysfunction, endotoxin-induced, effect of sulfidopeptide leukotriene receptor antagonists on, in awake sheep, 997
function
in adults, effect of cigarette smoking on rate of loss of (BRIEF COMMUNICATION), 1345
effects of steady-state and variable ozone concentration profiles on, 1487
in HIV infection, 745
improved, using aerosolized beclomethasone in chronic bronchitis, 389
relationship of skin test reactivity and eosinophilia to level of, in community-based population study, 638
responses to inhaled methacholine, partitioning of, in subjects with asymptomatic asthma, 1501
uptake of particles injected into circulation, portal hepatic versus, in sheep, 224
Pyrazinamide and rifampin, combined effect of, within human macrophage, 1448
Quinolone, lomefloxacin, *in vitro* activity of new, against *M. tuberculosis*, 1445
Rabbit(s)
aerosolized lipopolysaccharide increases pulmonary clearance of ^{99m}Tc-DTPA in, 1462
lungs, late effects of endotoxin on accumulation and function of monocytes in, 190
Race and sex differences in lung function and their relationship to frame size, 644
Radiography, chest, of lungs in asthma (BRIEF COMMUNICATION), 1084
Rats
adult, with monocrotaline-induced progressive hypertensive pulmonary vascular disease, elastolytic activity in, 213
effect of interleukin-2 on airway response to antigen in, 163
Escherichia coli endotoxemic, effects of N-acetylcysteine on diaphragmatic function and malondialdehyde content in, 730
immature, hyperoxia-induced airway remodeling in, and its correlation with airway responsiveness, 1294
influence of *Pneumocystic carinii* pneumonia on serum and tissue concentrations of pentamidine administered by tracheal injection to, 735
isolated trachea, prostanoids inhibit release of endogenous norepinephrine from, 1182
lung, isolated, effects of natriuretic peptides and neutral endopeptidase 24.11 inhibition in, 1198
model, effect of cirrhosis on production and efficacy of pneumococcal capsular antibody in, 1054
morphometric changes during early airway responses to allergen

challenge in, 1037
newborn, weanling adolescent, and adult, effect of steroids on diaphragm of, 26
tracheal epithelium, *Pseudomonas adherence* to (CORRESPONDENCE), 1367
Receptor(s)
antagonists, sulfidopeptide leukotriene, effect of, on endotoxin-induced pulmonary dysfunction in awake sheep, 997
function, peripheral mononuclear leukocyte beta-adrenergic, and nonspecific bronchial responsiveness to methacholine, relationship between, in young drug-naive subjects, 592
H_2-, role of, in histamine tachyphylaxis in human airway smooth muscle, 137
-mediated CI secretion, angiotensin II01, by canine tracheal epithelium, 1187
neurokinin A, potent and selective nonpeptide antagonist of, effect of, on isolated human bronchus, 1177
Red journal, this month in, 1, 277, 543, 817, 1127
Relaxation, left ventricular, interaction between effects of hypoxia and hypercapnia on altering, in dogs, 313
Renal failure, chronic, effect of, on skeletal and diaphragmatic muscle contraction, 1383
Reperfusion after 2-hour period of pulmonary artery occlusion causes pulmonary necrosis, 1048
Respiratory
clearance of ^{99m}Tc-DTPA, tachykinins increase, 1014
distress syndrome
acute
elevated levels of NAP-1/interleukin-8 are present in air spaces of patients with, and are associated with increased mortality, 427
mulitcenter registry of patients with, 419
adult, studies on role of tumor necrosis factor in, 694
disordered pathways of fibrin turnover in lung lavage of premature infants with, 492
effects, dust- and endotoxin-related, in animal feed industry, 1474
effort and dyspnea, dissociation between, 1222
health of women, research needs and opportunities related to (NHLBI WORKSHOP SUMMARY), 528
illness
chronic
exposure of older adults with, to nitrogen dioxide, 000
exposure-response relationships between occupational exposures and, 413
lower, subsequent incidence of, predictive relationship between serum IgE levels at birth and, in infants, 866
impairment, chronic, ^{31}P-NMR study of skeletal muscle metabolism in patients with, 1019
input impedance from 4 to 256 Hz in normal subjects and in those with chronic airflow obstruction, 570
output, effect of inspiratory flow rate on, in normal subjects (BRIEF COMMUNICATION), 787
responses to chest compression in human subjects, 980
short-term poststimulus potentiation after discharge in patients with obstructive sleep apnea, 1250
symptoms
absence of, and perception of airway obstruction in random population sample, 396
longitudinal lung function decline in subjects with, 855
relation of dose-response slope to, in population study of adults living in Busselton, Western Australia, 860
tract, lower, erythromycin reduces neutrophils and neutrophil-derived elastolyticlike activity in, in patients with bronchiolitis, 196
Rhinitis
allergen-induced immunohistology of nasal mucosa after, 170
allergic, different effects of nasal and bronchial glucocorticosteroid administration on bronchial hyperresponsiveness in patients with, 122
Rib cage-abdominal motion, effect of hyperinflation on, 1378
Rifampin and pyrazinamide, combined effect of, within human macrophage, 1448
Rwanda, Kigali, pulmonary tuberculosis in, impact of HIV infection on clinical and radiographic presentation of, 53
Salicylate-induced hyperventilation, amelioration of sleep apnea by, 711
Sarcoidosis
patients with, comparison of, with patients with active tuberculosis, 1216
platelet-activating factor in BAL from patients with, 433
Sensitization, intradermal, to free hapten, bronchial hyperreactivity after inhalation of trimellitic anhydride dust in guinea pigs after, 1311
Sepsis, increased serum catalase activity in patients with adult respiratory distress syndrome and, 985
Serum
angiotensin converting enzyme activity in chronic beryllium disease, 39
antibodies to hepatitis C virus, idiopathic pulmonary fibrosis and high prevalence of (BRIEF COMMUNICATION), 266
and N-terminal type III procollagen peptides in idiopathic pulmonary fibrosis, 701
catalase activity, increased, in septic patients with adult respiratory distress syndrome, 985
concentrations of pentamidine administered to rats by tracheal injection, influence of *Pneumocystis carinii* pneumonia on, 735
IgE levels at birth and subsequent incidences of lower respiratory illnesses and eczema, predictive relationship between, in infants, 866
secretory leukoprotease inhibitor levels to diagnose pneumonia in elderly, 1426
Sex and race differences in lung function and their relationship to frame size, 644
Sheep
airway blood flow, corticosteroid administration modifies ozone-induced increases in, 660
awake, effect of sulfidopeptide leukotriene receptor antagonists on endotoxin-induced pulmonary dysfunction in, 997
conscious, dibutyryl cyclic AMP attenuates lung responses induced by endotoxin in, 32
hepatic versus pulmonary uptake of particles injected into portal circulation in, 224
pulmonary hemodynamics and lung function during chronic paraquat poisoning in, possible role of reactive oxygen species in, 775
Shunt, severe hypoxemia-associated intrapulmonary, in patient with chronic liver disease (CASE REPORT), 526
Silo filler's disease in New York State, 650
Single-breath washout, inert gas, and structural alteration of respiratory bronchioles, 1167
Skin test reactivity and eosinophilia, relationship of, to level of pulmonary function in community-based population study, 638
Sleep
-disordered breathing, androgen blockade does not affect, in men with obstructive sleep apnea, 1389
effects of
transcutaneous electrical stimulation during wakefulness and, in patients with obstructive sleep apnea, 1030
triazolam on arousal response to airway occlusion during, in normal subjects, 1256
apnea. *See* Apnea, sleep
Smoke inhalation, effect of, on lung function and airway responsiveness in wildland fire fighters, 1469
Smokers
increased number of alveolar macrophages expressing adhesion molecules of leukocyte adhesion molecule family in, 1287
peripheral airway resistance in, 92
Smoking
cessation, effect of, on pulmonary carbon monoxide diffusing

capacity and capillary blood volume, 959
cigarette
acute effect of, on carbon monoxide diffusing capacity of lung, 951
effect of, on rate of loss of pulmonary function in adults (BRIEF COMMUNICATION), 1345
and immunoglobulin E, interaction between, in airflow obstruction in the elderly, 402
as risk factor for accelerated FEV_1 decline in male working populations, 878
Spirometry
comparisons and correlations with, in respiratory input impedance from 4 to 256 Hz in normal subjects and in those with chronic airflow obstruction, 570
results, reporting reproducibility of (CORRESPONDENCE), 1367
Sputum ECP levels correlated with parameters of airflow obstruction, 604
SR 48968, effects on isolated human bronchus of, 1177
Staining, immunofluorescent monoclonal antibody, diagnosis of *Pneumocystis carinii* pneumonia by multiple-lobe, site-directed BAL with, in HIV-infected patients receiving aerosolized pentamidine chemoprophylaxis, 838
STATE OF THE ART
Bacterial infection in chronic obstructive pulmonary disease, 1067
Disease of the small airways, 240
Emphysema: the first two centuries—and beyond: a historical overview with suggestions for future research. Part 1, 1334; Part 2, 1615
Steady-state and variable ozone concentration profiles, effects of, on pulmonary function, 1487
Stents, tracheobronchial, physiologic studies of in airway obstruction (BRIEF COMMUNICATION), 1088
Steroid(s)
effect of, on diaphragm of newborn, weanling adolescent, and adult rats, 26
-responsive culture-negative pulmonary lesions in extracutaneous manifestations of Sweet's syndrome (CORRESPONDENCE), 269
(systematic lazaroid U-78517F) inhibits canine *in vivo* tracheal chemotaxis of eosinophils to antigen in sensitized dogs, 621
Substance P in cerebrospinal fluid (BRIEF COMMUNICATION), 784
Sulfidopeptide leukotriene receptor antagonists, effect of, on endotoxin-induced pulmonary dysfunction in awake sheep, 997
Sulfuric acid aerosol exposure in humans assessed by BAL, 626
Superoxide anion associated with increased number of alveolar macrophages expressing adhesion molecules of leukocyte adhesion molecule family in smokers, 1287
Surgery, effects of, on nasal obstruction in treatment of obstructive sleep apnea, 1261
Sweet's syndrome, extracutaneous manifestations of, steroid-responsive culture-negative pulmonary lesions in (CORRESPONDENCE), 269
Syndrome
acquired immunodeficiency
bacterial tracheitis with upper airway obstruction in patient with (CASE REPORT), 1598
patients with, and hypoglycemia and azotemia, higher pentamidine levels in, during treatment of *Pneymocystis carinii* pneumonia, 740
pulmonary and intestinal microsporidosis in patient with (CASE REPORT), 1603
acute respiratory distress, multicenter registry of patients with, 419
adult respiratory distress
effect of tidal volume on gas exchange and oxygen transport in, 1131
elevated levels of NAP-1/interleukin-8 are present in air spaces of patients with, and are associated with increased mortality, 427
increased serum catalase activity in septic patients with, 985
retargeting ventilatory objectives in (EDITORIAL), 2
studies on role of tumor necrosis factor in, 694
subpopulation of hyperresponsive polymorphonuclear neutrophils in patients with, 990
respiratory distress, disordered pathway of fibrin turnover in lung lavage of premature infants with, 492
Sweet's extracutaneous manifestations of (CORRESPONDENCE), 269
Tachykinins increase respiratory clearance of ^{99m}Tc-DTPA, 1014
Tachyphylaxis, histamine, in human airway smooth muscle, role of H_2-receptors and bronchial epithelium in, 173
^{99m}Tc-DTPA
aerosolized lipopolysaccharide increases pulmonary clearance of, in rabbits, 1462
lung inflammation in coal miners assessed by uptake of ^{67}Ga-Citrate and clearance of inhaled, 47
trachykinins increase respiratory clearance of, 1014
Temperature thresholds in oropharynx of patients with obstructive sleep apnea syndrome, 1246
Tetracycline-hydrochloride-induced pleurodesis, mechanisms of, 1009
Theophylline
does not increase ventilatory responses to hypercapnia or hypoxia, 1398
disposition, effect of leukotriene C_4 on, in guinea pigs, 616
effects of, on fatigued canine diaphragm *in vivo*, 22
Thromboxane B_2, 11-dehydro-, urinary excretion of, in response to bronchial provocations with allergen, aspirin, leukotriene D_4, and histamine in asthmatics, 96
Thyrotropin-releasing hormone in cerebrospinal fluid (BRIEF COMMUNICATION), 784
Tidal volume, effect of, on gas exchange and oxygen transport in adult respiratory distress syndrome, 1131
Tissue(s)
and airway oxygen tensions, short-term interaction of, on ciliary beat frequency in dogs, 141
alveolar and nonalveolar, distribution of lung cell numbers and volumes between, 454
bronchus-associated lymphoid, study of in patients with diffuse panbronchiolitis, 473
concentrations of pentamidine administered to rats by tracheal injection, influence of *Pneumocystis carinii* pneumonia on, 735
Toluene diisocyanate exposures and their relationship to abnormal lung function in polyurethane foam producers, 871
Tomography
fast computed, in evaluation of effect of lung volume on upper airway size and function in normal men, 335
high resolution computed of lungs in asthma (BRIEF COMMUNICATION), 1084
scan correlates, computed, and plasma elastin-derived peptide levels in normal adults, children, and emphysematous subjects, 1143
Torasemide, inhaled, effect of, on bronchial response to ultrasonically nebulized distilled water in asthmatic subjects, 364
Trachea
mouse, $CD4^+$ T-lymphocytes and interleukin-5 mediate antigen-induced eosinophil infiltration into, 374
rat isolated, prostanoids inhibit release of endogenous norepinephrine from, 1182
Tracheitis, bacterial, with upper airway obstruction in patients with AIDS (CASE REPORT), 1598
Transplantation
autologous bone marrow, pulmonary complications in patients with lymphoma treated with high-dose therapy and, 485
biology of lung preservation for (NHLBI WORKSHOP SUMMARY), 803
bone marrow, airway inflammation predicts diffuse alveolar hemorrhage during, in patients with Hodgkin's disease, 439
double-lung, hypercapnic ventilatory response in recipients of (BRIEF COMMUNICATION), 1610

Triazolam, effect of, on arousal response to airway occlusion during sleep in normal subjects, 1256
Trimellitic anhydride
dust, bronchial hyperreactivity after inhalation of, in guinea pigs after intradermal sensitization to free hapten, 1311
guinea pig
model of immunologic asthma induced by inhalation of, 1553
sensitized with, bronchoconstriction and airway microvascular leakage in, 1306
Tuberculin
reactivity, factors associated with, among foreign-born in Montreal, 752
tests, stability of (CORRESPONDENCE), 536
Tuberculosis
active, characterization of gamma/delta T-lymphocytes in peripheral blood of patients with, 1216
cohort study of HIV infection in patients with, in Nairobi, Kenya, 849
control of, in United States (ATS PAPER), 000
drug-resistant, in urban population including patients at risk for HIV infection, 280
isoniazid preventive therapy of, decision analysis considering ethnicity and gender in (CORRESPONDENCE), 1118
pulmonary
community-based short-course treatment of, in developing nation (CORRESPONDENCE), 536
in Kigali, Rwanda, impact of HIV infection on clinical and radiographic presentation of, 53
2-year incidence of, in cohorts of HIV-infected and uninfected urban Rwandan women, 1439
in United States (EDITORIAL), 278
Tumor
necrosis factor
-alpha
hard metal pneumoconiosis and association of (CASE REPORT), 1600
production by human mononuclear phagocytes from allergic asthmatics after IgE-dependent stimulation, 768
production, changes in, by peripheral blood monocytes after specific bronchoprovocation test in occupational asthma, 408
studies on the role of, in adult respiratory distress syndrome, 694
proliferative fraction, prognostic significance of, in Stage I non-small-cell lung cancer, 707
thoracic, ultrasound-guided core biopsy of, 763
Ultrasonography, pulmonary consolidation evaluated by, 757
Ultrasound-guided core biopsy of thoracic tumors, 763
United States
control of tuberculosis in (ATS PAPER), 1623
increasing problem of asthma in (EDITORIAL), 823
tuberculosis in (EDITORIAL), 278
Urea and water, origin of, sampled at BAL in asthmatic and in control subjects, 444
Vascular disease, monocrotaline-induced progressive hypertensive pulmonary, increased pulmonary artery elastolytic activity in adult rats with, 213
Vasculitis, pulmonary, in Behcet's disease, 232
Vasodilator, pulmonary, adenosine is, in newborn lambs, 670
Venous return curve, canine, effects of positive end-expiratory pressure on, 4
Ventilation
continual positive-pressure, and two types of negative pressure, hemodynamic differences between, 677
and gaseous metabolism in infants born at high altitude and their responses to hyperoxia, 1206
mechanical
delivery of nebulized aerosol to lung model during, effect of ventilator settings and nebulizer type, position, and volume of fill on, 383
level of, use of measurement of pulmonary hyperinflation to control, in patients with acute severe asthma, 1136
for near-fatal attack of asthma, 6-year follow-up study of 145 asthmatic patients who underwent, 76
risk factors for morbidity in patients with acute severe asthma receiving, 607
negative pressure, effect of, on ventilatory muscle endurance in patients with severe COPD, 722
pressure-control
effect of catheter position, diameter, and flow rate on tracheal gas insufflation during, 1411
lung mechanics and gas exchange during, in dogs, 965
Ventilatory
drive, effects of smoked marijuana of varying potency on, 716
objectives, retargeting, in adult respiratory distress syndrome (EDITORIAL), 2
responses
to acute hyperoxia in newborns, 11
to hypercapnia or hypoxia, theophylline does not increase, 1398
hypercapnic, in recipients of double-lung transplants (BRIEF COMMUNICATION), 1610
Ventricular function, right, effect of positive end-expiratory pressure on, in humans, 681
Virus
hepatitis C, idiopathic pulmonary fibrosis and high prevalence of serum antibodies to (BRIEF COMMUNICATION), 266
disease, human immunodeficiency
impact of infection with, on clinical and radiographic presentation of pulmonary tuberculosis in Kigali, Rwanda, 53
patients with, receiving aerosolized pentamidine chemoprophylaxis, diagnosis of *Pneumocystis carinii* pneumonia by multiple-lobe, site-directed BAL with immunofluorescent monoclonal antibody staining in, 838
2-year incidence of tuberculosis in cohorts of urban Rwandan women infected and uninfected with, 1439
infection
human immunodeficiency
cohort study of, in patients with tuberculosis in Nairobi, Kenya, 849
drug-resistant tuberculosis in urban population including patients at risk for, 280
incidence and natural history of *M. avium*-complex in patients with advanced, treated with zidovudine, 285
-1, human immunodeficiency, envelope protein (gp120) inhibits activity of human/bronchoalveolar macrophages against *Cryptococcus neoformans*, 1434
Visual analog scale measurements of dyspnea, reproducibility of, in patients with COPD, 82
Volume
capillary blood, effect of smoking cessation on, 959
history, mediators, and inflammation, relationship among, with antigen versus hyperpnea challenge in guinea pigs, 1315
lung
distribution of, between alveolar and nonalveolar tissues, 454
effect of, on upper airway size and function, fast-CT evaluation of, in normal men, 335
in one second, accelerated forced expiratory, decline of, in male working populations, methacholine responsiveness, smoking, and atopy as risk factors for, 878
overload, prone position alters effect of, on regional pleural pressures and improves hypoxemia in pigs *in vivo*, 300
Water
ultrasonically nebulized
distilled, affect of intravenously infused atrial natriuretic peptide on bronchoconstriction induced by, 912
effect of inhaled furosemide and torasemide on bronchial response to, in asthmatic subjects, 364
and urea, origin of, sampled at BAL in asthmatic and in control subjects, 444
Western red cedar, bronchial hyperresponsiveness and level of exposure in occupational asthma caused by (BRIEF COMMUNICATION), 1606

Women
HIV-infected and uninfected urban Rwandan, 2-year incidence of tuberculosis in cohorts of, 1439
respiratory health of, research needs and opportunities related to (NHLBI Workshop Summary), 528
Workers
in animal feed industry, dust- and endotoxin-related respiratory effects in, 1474
coal, lung inflammation in, assayed by uptake of ^{67}Ga-citrate and clearance of inhaled ^{99m}Tc-DTPA aerosol, 47
laboratory animal, risk factors for increased airway responsiveness to methacholine challenge among, 1474
male, methacholine responsiveness, smoking, and atopy as risk factors for accelerated FEV_1 decline in, 878
Zidovudine, incidence and natural history of *M. avium*-complex infections in patients with advanced HIV disease treated with, 285
Zymosan peritonitis, lung oxidant changes after, 1272
